The indicated historical performance levels are not a guarantee of similar growth in value in the future. Losses of value cannot be ruled out, and Spuerkeess may not be held liable for them. The actuarial yield represents the yield obtained when a bond portfolio is held to maturity.

The level of risk is determined on the basis of the historical performance of the last five years and should not be considered a reliable indicator of the future risk profile of the compartment. It represents the risk of fluctuations in the net asset value per share and may change over time. Level 1 represents the lowest risk, and level 7 represents the highest risk. The higher the risk, the longer the recommended investment period. For details on the risks involved, please consult the KIID.

The entry and exit charges are those indicated in the prospectus. The actual applicable charges may be consulted in our brochure "General tariffs on financial instruments" available at www.spuerkeess.lu and at Spuerkeess branches.
